KEY PROJECTS

2022

Coach Carry Trade

cocatr-deployment.herokuapp.com/

- A proof of concept two-sided marketplace to facilitate the trading and cooperation between different gaming communities.
- Powered by Ruby on Rails, Cloudinary and Heroku.

2021

Arkane Orkz

github.com/harley-ca/arkaneorkz

- A small console based game that lets players create a persistent character and compete against other locally saved characters to gain experience and level up.
- Written in Ruby.

PREVIOUS EMPLOYMENT

2020

I Wanna Ticket

Junior Web Developer - Contract

- Short term contract where I assisted with development of an online seating system for large scale events.
